had contracted Contagious Blood Poison until it had made considerable headway, and fortunately for me the friend that I first consulted had had some experience with the disease, and advised me to take S. S., so I didn't fool with any doctors,

but began at once the use of your medicine, taking it as directed. My friend told me to stick to it, and that was what I did, and got along splendidly from the very first, and my re-covery was rapid. I took only about one dozen bottles, and am now as well as ever. When I began S. S. S. my face was so full of sores and eruptions that I could not shave, and now

there is not a blotch or pimple on my body.
204 Oakley St., Evansville, Ind. WALTER WEBER.

ease, which was in spots at first, but afterwards spread all over my body. These soon broke out into sores, and it is easy to imagine the suffering I endured. Be-fore I became convinced that the doctors

could do me no good I had spent a hundred dollars, which was really thrown away. When I had finished my first bottle of S. S. S. I was greatly improved, and was delighted with the result. The large red splotches on my chest began to grow paler and smaller, and before long disappeared entirely. I regained my lost weight, became stronger, and my appetite greatly improved. I was soon entirely well, and my skin as clear as a piece of glass.

58 Clinton St., Newark, N. J.

Contagious Blood Poison, sometimes known as "THE BAD DISEASE," begins usually with a little pimple or sore, and this may be the only external evidence for several weeks; but soon the glands in the neck and grouns swell, pimples and red eruptions break out on the breast and other parts of the body, the mouth and throat get sore, the tongue heavily coated, the hair falls out, and as the contamination more thoroughly saturates the system, copper-colored spots and other severe symptoms make their appearance. Too often the sufferer turns to the Mercury and Potash treatment and smothers and hides the disease in the system, and when they are left off he finds that this masking of the disease has concentrated its strength, and it breaks forth again with consuming intensity. Mercury and Potash not only fail to cure Blood Poison, but produce other severe troubles such as Mer-

curial Rheumatism, necrosis of the bones and inflammation of the Stomach and Bowels. S. S., the great vegetable blood purifier and tonic, cures this disease and the cure is permanent. It goes into the circulation and searches and filters out every particle of the poison, gives renewed strength and energy to the blood and brings back robust and satisfying health. It does the work surely and safely, eradicating at the same time any poisons that may have accumulated from the use of harmful minerals. It is purely vegetable, and we offer a reward of \$1,000 for proof that it contains a particle of mineral. Our special book on Contagious Blood Polson is a complete treatise

on this disease. It will be mailed free to all who ask for it, and our physicians will gladly give personal attention to the cases of all who write. We make no charge whatever for this.
